

REQUIREMENTS FOR FIREWORK STANDS, TRAILERS AND TENTS

Temporary stands, trailers and tents less than 200 square feet used for the retail sales of class C common state approved explosives shall be constructed in compliance with local rules, or if none, in accordance with nationally recognized practice. Tents having an area in excess of 200 square feet shall comply with IFC, Chapter 31.

- The general public shall not be allowed to enter a temporary stand or trailer.
- Each stand, trailer or tent less than 200 square feet shall have a minimum three foot wide unobstructed aisle, running the length of the stand, trailer or tent.
- All tents where customers enter inside shall have a minimum three foot wide unobstructed aisle and two separate exits located a reasonable distance apart and so located that if one is blocked the other will be available.
- The area used for sales of class C common state approved explosives in stands, trailers or tents shall be arranged to permit the customer to only touch or handle pre-packaged class C common state approved explosives. All non-pre-packaged class C common state approved explosives shall be displayed in a manner which prevents the fireworks from being handled by the customer without the direct intervention of the retailer who shall be able to maintain visual contact with the customer.
- Temporary stands, trailers or tents for the sale of class C common state approved explosives shall be located at least 50 feet from other stands, trailers, tents, LPG, flammable liquid or gas storage and dispensing units.
- If the stand or trailer is used for the overnight storage of class C common state approved explosives, it shall be equipped with suitable locking devices to prevent unauthorized entry. Tents shall not be used for overnight storage of class C common state approved explosives unless on site security is provided.
- No person shall be allowed to sleep in any temporary stand, trailer or tent in which class C common state approved explosives are stored or sold.
- Stands, trailers or tents shall not be illuminated or heated by any device requiring an open flame or exposed heating elements. All heaters shall be approved by the authority having jurisdiction (AHJ).
- All illumination shall be installed in accordance with the temporary wiring section of the National Electric Code and approved by the authority having jurisdiction (AHJ).
