

Please . . .
**Adopt Your
Fire Hydrant.**

With all of our recent snowfall, the Unified Fire Authority is asking for your help. Please help us by making sure that snow and other debris is cleared from around any fire hydrant near your home or place of business. This will help fire crews get access to a hydrant in case of an emergency.

Please adopt-a-hydrant and dig it out! The building it saves may be your own!

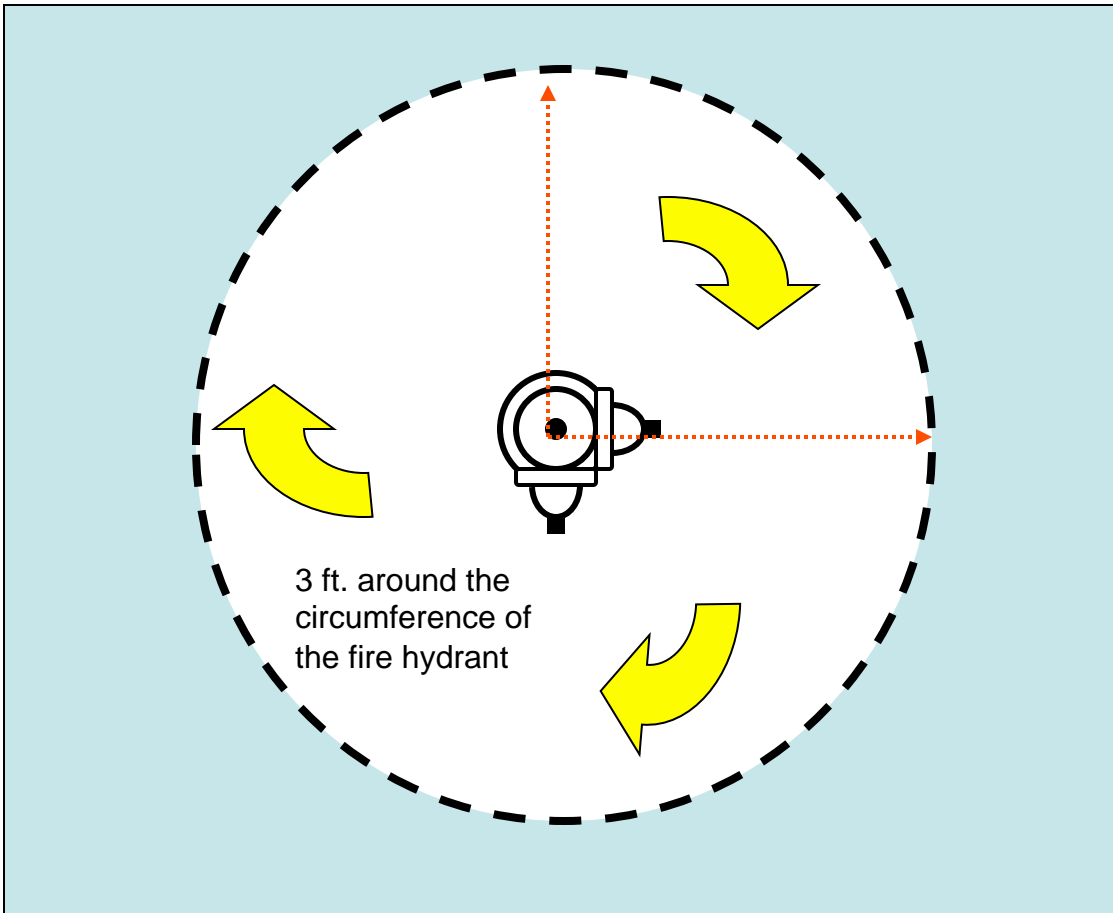

Adopt your fire hydrant.

- ✓ **Clear a three foot area around the hydrant after each snowfall.**
- ✓ **A fire can double in size every 2-3 minutes. It can be a significant delay in fire operations if an Engine crew needs to search for and clear out a hydrant.**
- ✓ **Contact the Water Department if a hydrant is damaged.**
- ✓ **Do not block hydrants with autos, trailers or dumpsters.**

For additional information please contact the Unified Fire Authority "Code Enforcement Bureau" at 743-7230.

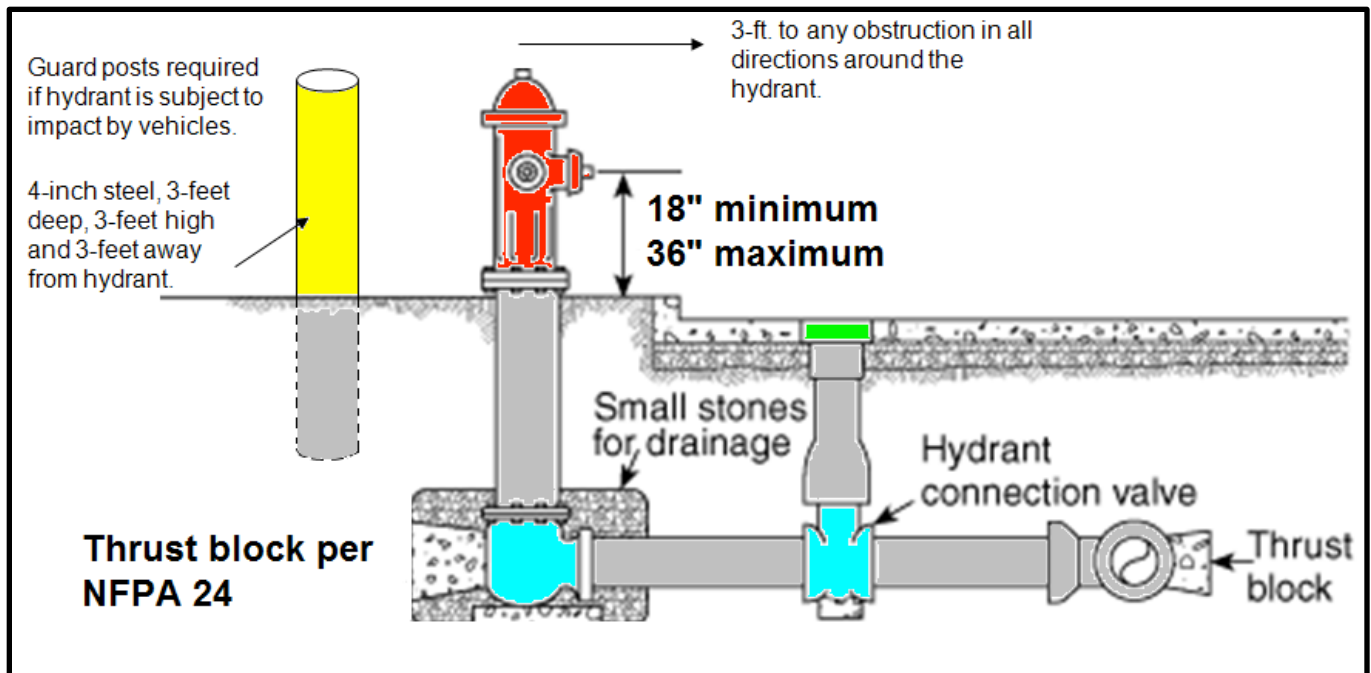

IFC 508.5.5 Clear space around hydrants. A 3-foot clear space shall be maintained around the circumference of fire hydrants except as otherwise required or approved.

508.5.6 Physical protection. Where fire hydrants are subject to impact by a motor vehicle, guard posts or other approved means shall comply with Section 312.

For additional information please contact the Unified Fire Authority "Code Enforcement Bureau" at 743-7230.
